TerrSat *Leonardo*

Fully Automatic Satellite Systems for RV's

18cm

- **The Best & Most Advanced Automatic Satellite Dish On The Market**
- **Definitely The Best Wind Stability** - achieved by all metal heavy duty gears
- **Coverage** – Whole Australia with high efficiency satellite dishes
- **Weight** – only 10Kg, making them the lightest on the market, perfect for pop tops too
- **The height** is only 18cm when parked
- **Twin LNB** for VAST & Foxtel reception

- **Easy to use.** Single-button operation, just press the power button, and it will find the satellite automatically
- **Multi channel GPS** used for fast satellite search, taking only 30 seconds to lock on the satellite
- **Capable of receiving** Optus D3/ Optus 10, Optus D1, Intelsat 19
- **Automatic satellite dish parking** once RV starts moving, if you forget to park it down
- **Control box uses latest UHD** tuner for satellite search
- **Software upgrade** done by micro SD card.

Suitable for VAST and Foxtel
