

TerrSat 12V Box

For STARLINK Gen2 & Gen3

- Supports 12V or 24V battery systems
- Supplies power to Starlink Dish
- Built in Wi-Fi Router
- No need for any installation in your Caravan, RV, Car or Boat
- All set and programmed, just plug and play
- Plugs into Anderson plug, or cigarette lighter socket
- No need for 12V to 240V inverter
- Draws a lot less power than using it through the 240V inverter and original Router/Power Supply
- Easy login to the built in Wi-Fi for internet or mobile phone communications
- Choice of standard Wi-Fi 5 or Wi-Fi 6 and cooling fan
